What is a solar RFP?

But first a few key definitions: A Request for Proposal(RFP) is a formal bid document to ask vendors to provide proposals for desired projects,as required by many public agencies (federal,state,local). A solar RFP outlines the photovoltaic (PV) product or service requirements,the contract terms,and bidding process.

Where can I get a proposal for a solar PV project?

Request for Proposals: Project No. 10-001, Solar PV's at Water Reclamation Center. Available at 25 Salt River Project Agricultural Improvement and Power District. n.d. Request for Proposals for Solar Photovoltaic Energy and Renewable Energy Credits.

How can a pm solicit a Solar System proposal?

To solicit proposals for a solar system,a PM can issue a competitive RFPpublicly and to multiple certified installers,or request quotes directly from a few trusted installers. For either of these methods,the PM can use MassCEC's project and cost data to find installers who have completed nearby commercial projects.

Should local governments develop a solar-only RFP?

In addition to the considerations listed in the previous section, local governments developing a solar-only RFP should include as many of the following RFP elements as feasible or applicable to their unique circumstances, along with those elements required by law in their jurisdiction.

After selection, the PM will move to contract negotiations with the chosen installer and then sign a contract for either an engineering, procurement and construction agreement to own the system, or a ...
