What are IP65 ratings in electrical enclosures?

Learn about IP65 ratings in electrical enclosures, indicating resistance to solids and water, ensuring reliability in diverse environments.

What is an IP65 certificate?

IP65 Certificate (Click to View) What Are IP-Rated Enclosures? IP (Ingress Protection) ratings are defined by the international standard IEC 60529 to specify how well an enclosure protects against the intrusion of solid particles (like dust) and liquids (like water). Each rating consists of two digits:

Is IP65 a good level of ingress protection?

IP65 is a moderate level of ingress protection, providing strong protection against dust and moderate protection against water. What Is an IP65 Rating? The International Electrotechnical Commission publishes a rating scale for ingress protection (IP rating).

What is an IP65 stainless steel enclosure?

The IP65 Stainless Steel Enclosure is engineered to deliver robust protection in harsh and corrosive environments. Made from high-grade SUS304/SUS316 stainless steel, this enclosure is ideal for applications requiring long-term durability, hygiene, and resistance to moisture, chemicals, and salt spray.

Among the leading solutions in this category, the LISUN JL-12 IP65 Weatherproof Enclosure exemplifies robust engineering, combining durability with precision compliance to ...

IP65 rated is a common level of protection for outdoor lighting that will be exposed to all weather conditions. IP65 is also the standard required for lighting with Zone 1 of a bathroom over a bath and ...

We specialize in manufacturing high-quality IP-rated enclosures up to IP65, suitable for demanding industrial and outdoor environments. All our IP65 enclosures are tested and come with official ...
