With options like solar 3-phase hybrid solar inverters in sizes 30kW, 50kW, 100kW, and 500kW, as well as storage capacity options such as 300kWh, 100kWh, 500kWh, and 1MJ, it accommodates a wide ...

The battery voltage range of 520~759.2V ensures optimal performance. With Grid Type 3P4W and a Rated Power of 50KW, this cabinet seamlessly integrates with your power grid. Its compact ...

Supports self-consumption, peak-valley arbitrage, backup power, and other various scenarios. Max. DC input voltage. *The data sheet will be changed according to actual situation without prior notice.

Maintenance bypass cabinet with output transformer. The maintenance bypass isolates the UPS completely during service operations. The output transformer converts the 480 V output of the UPS ...

These products integrate the latest energy management technologies and environmentally friendly materials, aiming to promote the green transformation of communication networks from source to ...

This parallel control cabinet has a powerful intelligent control core that can achieve multi machine synchronous grid connection at millisecond speed, ensuring smooth power output and effectively ...

KDST's power system cabinets offer flexible internal configurations to accommodate various electrical components, including inverters, DC combiner boxes, disconnect switches, fuses, DC power ...

It supports flexible increase and decrease, the power level of a single cabinet covers 50kW~630kW, and can be extended by up to 4 cabinets, realizing a single system of 1MW.
