What are hybrid solar air conditioners?

Hybrid solar air conditioners are the next generation solar air conditioners. Our patented technology is able to draw power from the solar panels and directly power the air conditioner system. Enovatek Energy also offers the 100% Off Grid Solar DC Air Conditioner for residential spaces in Singapore.

Who installs solar panels in Thailand?

We are solar professionals with many years of experience in the photovoltaic industry across Asia. We install home rooftop solar systems in various locations across Thailand, including Hua Hin, Pattaya, Phuket, and Buriram.

Who is the largest air conditioner manufacturer in Thailand?

Saijo denki is the largest air conditioner manufacturer in Thailand. We have great experience in manufacturing more than 20 years. In Thailand, we are the second largest market share among the international competitors and the largest market among the local brand.

Do solar air conditioners save money?

The perfect solution to mitigate high costs and conserve the environment without compromising on comfort lies in using solar air conditioners. These air conditioners run on DC power from solar panels during the day. At night or when there isn't enough sunlight, the air conditioning system switches to AC (the grid).
