Why is Tunisia investing in a secure electricity network?

To ensure a resilient electricity network, Tunisia is investing in modern, secure infrastructure. The ELMED interconnection project, which will link Tunisia to Italy by 2028, will play a key role in stabilizing energy supply, while supporting the energy transition in Tunisia and Europe.

What is the energy sector in Tunisia?

Revised in November 2024, this map provides a detailed view of the energy sector in Tunisia. The locations of power generation facilities that are operating, under construction or planned are shown by type - including gas and liquid fuels, natural gas, hybrid, hydroelectricity, solar (PV and CSP), wind and biomass/biogas.

Why should Tunisia invest in Tereg?

"By fostering renewable energy development, Tereg will strengthen Tunisia's position in clean energy, creating economic opportunities and ensuring long-term energy security," said Alexandre Arobbio, World Bank Country Manager for Tunisia. "This project reflects our strong partnership with Tunisia and supports its sustainable development goals."

How is Tunisia strengthening the electricity authorization regime?

Today, Tunisia is continuing to strengthen this framework through various actions. Recent advances include: The implementation of a fixed feed-in tariff for the authorization regime, accompanied by a revision of the electricity purchase agreement (PPA).
