These projects include a variety of storage methods such as Li-Ion batteries, flow batteries and pumped hydro storage, which releases water stored at height to turn turbines, creating...

The UK energy regulator, Ofgem, has advanced 77 Long Duration Energy Storage (LDES) projects into the next phase of its "cap and floor" ...

The UK energy regulator, Ofgem, has advanced 77 Long Duration Energy Storage (LDES) projects into the next phase of its "cap and floor" revenue support scheme.

On 10 October 2024 the UK Government gave the green light to a cap and floor scheme to help bring long duration energy storage (LDES) projects to market. LDES projects include pumped storage ...

On 10 October 2024 the UK Government gave the green light to a cap and floor scheme to help bring long duration energy storage (LDES) projects to market. ...

In this blog, we'll explore the top 7 battery energy storage system projects in the UK for 2025. We'll look at each project's capacity, project cost, current status, and how it supports the broader shift to clean ...

The company's experience in battery energy storage systems (BESS) includes grid-forming technologies, grid stability projects and the UK's first privately connected rotating stabiliser ...

The research by UK independent power producer Root-Power identifies 173 BESS projects, with a combined capacity of 7.6GW, likely to benefit from changes designed to accelerate ...
