What is an outdoor telecom enclosure?

The outdoor telecom enclosures, which are also referred to as telecommunications cabinets, are fully enclosed cabinets that help protect electrical cabling and other equipment from potentially damaging environments. Such damage can be caused by dust, rain, ice, and external heat. What do you need to know about outdoor telecom enclosures?

Can telecommunications equipment be terminated outdoors?

One of the biggest challenges of terminating your telecommunications equipment outdoors is finding outdoor enclosures that will be able to properly withstand the elements. Temperature, moisture, ice, shock hazards, and UV damage are all potential dangers to consider before purchasing an outdoor enclosure or cabinet.

What are outdoor data cabinets & server rack cabinets used for?

Our outdoor data cabinets and outdoor server rack cabinets are perfect for housing IT, telecom, security, and networking equipment, including 5G and Edge computing applications. We offer both single and double door options, with a bespoke manufacturing and paint service available.

What are outdoor cabinets used for?

Outdoor cabinet usage is increasing through the roll out of fibre, 5G and Edge computing environments. Our outdoor cabinets can be used for street and roadside applications as telecoms and data cabinets and are designed to house and protect data, telecoms and IT systems from weather extremes. Manufacturing features and options include:
