This investigative article exposes the discovery of undocumented communication devices hidden in Chinese-made solar inverters, creating ...

Cellular radios and other undocumented devices were found in solar inverters and batteries. The transition to clean energy without sufficient domestic manufacturing options has made ...

However, undocumented communication devices have reportedly been found in some Chinese solar power inverters. And over the past nine months, such devices--including cellular radios--have also...

Technical experts conducting detailed hardware inspections, or "teardowns," of inverters connected to U.S. power grids revealed the presence of unauthorized communication modules, ...

U.S. energy officials have launched an investigation after discovering unauthorized communication equipment embedded within Chinese-manufactured solar power inverters connected ...

LONDON, May 14 (Reuters) - U.S. energy officials are reassessing the risk posed by Chinese-made devices that play a critical role in renewable energy infrastructure after unexplained...

U.S. energy officials are reportedly reassessing the security risks posed by Chinese-made components in renewable energy infrastructure after discovering hidden communication ...

Undocumented communication devices have been discovered inside solar inverters and batteries manufactured in China, according to two sources familiar with the ...
