The compact dimensions of 1757 x 1134 x 30 mm and weight of only 21.5 kg facilitate transport and installation. The module is made with 3.2 mm tempered glass and a black anodized aluminum frame, ...

All Dimensions in mm The above drawing is a graphical representation of the product. For engineering quality drawings please contact SUNKET.

The physical characteristics of a solar panel have an impact on the product's performance. For example, metrics like efficiency and wattage are based on the type, size, and number of solar cells used in a ...

Each of the panel's 88 cells is only half the size of a traditional solar cell. This grants REC460AA PURE-RX lower resistive losses and better shade ...

Mechanical Properties Cell Type SE-PERC Glass 3.2mm, an -reflec on coa ng, high transmission, low iron, tempered glass Frame Anodized Aluminum Alloy Junc on Box IP68 Dimensions 75.1 X 44.6 X ...

Measuring 68.0 x 47.4 x 1.2 inches and weighing 51.6 pounds, its black anodized frame and anti-reflective glass ensure durability and aesthetics. Made in Singapore, it excels in diverse conditions, ...

Each of the panel's 88 cells is only half the size of a traditional solar cell. This grants REC460AA PURE-RX lower resistive losses and better shade tolerance. Given its size and weight, ...

The Aptos 460W Monofacial Solar Panel delivers top-tier performance with cutting-edge technology and superior durability. Featuring patented DNA technology, ...
