Given that the construction of the Yangtze River Economic Belt is one of China's national strategies, the sustainable development of the Yangtze River delta has received considerable attention.

The Cabinet offers flexible installation, built-in safety systems, intelligent control, and efficient operation. It features robust lithium iron phosphate (LiFePO₄) batteries with scalable ...

The Yangtze corridor is emerging as the world's largest clean-energy trade route, powered by HVDC, solar, and battery-electric vessels.

As a market leader in the lithium battery storage cabinet sector, YIYEN leverages its expertise in electrochemical energy storage and energy efficiency management to deliver top-notch solutions.

125KW+261KWh lithium-ion battery system cabinet integrates robust power output and substantial energy storage, engineered for industrial, commercial, and renewable energy ...

This integrated energy storage system delivers 125KW of reliable power with an expanded capacity of 261KWH. The self-contained cabinet features advanced LiFePO₄ battery technology and fully ...

Our professional R& D team focuses on meeting the individual needs of our clients, tailored to create efficient and stable battery solutions that facilitate the successful implementation of ...

This integrated energy storage system delivers 125KW of reliable power with an expanded capacity of 261KWH. The self-contained cabinet features advanced LiFePO₄ battery ...
