Where can I buy a 15kW solar system?

At A1 SolarStore we offer complete 15kw solar systems for sale where all the parts are already picked by our engineers. The majority of commercial-scope systems are grid-tie which means that you retain the connection to the grid when you add solar. Your appliances use solar energy all the time so that your bills decrease significantly.

What is a 15 kW solar system?

These 15 kW size grid-connected solar kits include solar panels,DC-to-AC inverter,rack mounting system,hardware,cabling,permit plans and instructions. These are complete PV solar power systems that can work for a home or business,with just about everything you need to get the system up and running quickly.

How much does a 15 kW solar kit cost?

Buy the lowest cost 15 kW solar kit priced from \$1.13 to \$2.00 per watt with the latest, most powerful solar panels, module optimizers, or micro-inverters. For home or business, save 26% with a solar tax credit. Click on a solar kit below to review parts list and options for battery storage, EV charging and installation.

Does a 15kW solar system have batteries?

You can also go for hybrid variation or 15kw off grid solar system. In this case your system will also have batteries that will be your backup for a power outage. Hybrid systems allow you to retain the option of a net metering but with an interrupted power supply as well. Some ask,how many batteries for 15kw solar system do you need?
